- Anything that incorporates Molecular Gastronomy tools and equipment (it is the coming thing)
- Menu item identification holder (stainless) (kinda like guest plate holders for names)
- Sugar and sweetner holders for tables
- Matching salt and pepper shakers in holders up to 30 sets

Two schools need “a room make over”.

- **Northwest Classen High School, Angela Doss; Instructor and Star Spencer High School, Sharon Love; Instructor**

They are both operating in old FACS kitchens that really just need a total overhaul. OKCPS can purchase all the equipment and a venthood system but where they run into problems is getting the work done.

- Need a layout – architectural plan
- Need to make sure everything is to code
- There will be plumbing/drain issues and electrical issues
- The existing cabinets need an overhaul
- Anything that can be done volunteer would be so helpful.
